Network – placing text on side panels and podium

Network 66+68+68+68+66 cm panels

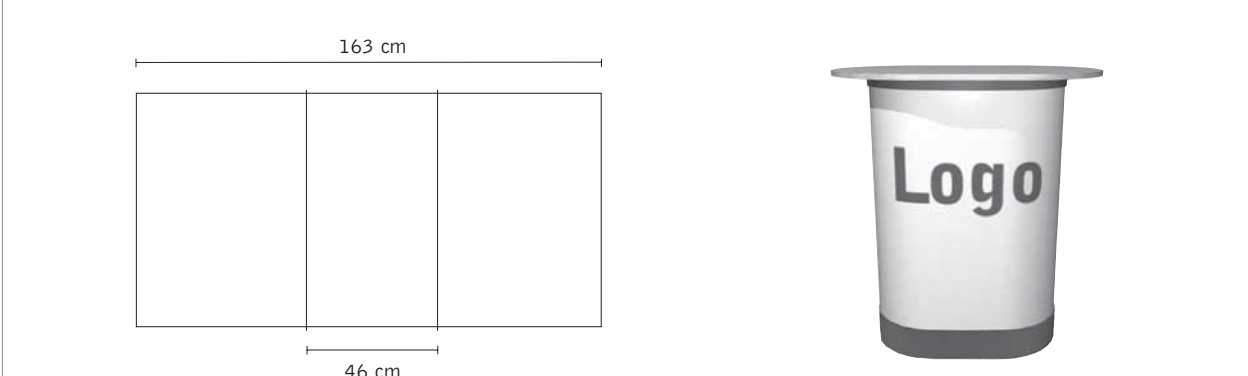

The diagram shows a layout of five panels. The two outer panels are labeled "Side panel" and are 66 cm wide. The three inner panels are labeled "Center panels" and are 68 cm wide. The distance from the center of the side panels to the center of the center panels is 33 cm. The distance from the edge of the center panels to the edge of the side panels is 25 cm. A 3D rendering of the network structure shows the side panels and center panels in perspective.

If you would like the text so it is visible from the side and partially on the front place the text in the centre.

To be able to read the full text when standing in front of the Network position it within 25 cm from the edge of the center panels.

All-in-one podium 163x82 cm panel (old size), 163x85 cm panel (new size)

The diagram shows a layout of a panel with a total width of 163 cm. The panel is divided into three sections, with the central section being 46 cm wide. A 3D rendering of the podium shows the logo placed in the center of the panel.

To be able to view the logo/image fully from the front, place it in the center of the panel at 46 cm width.
