It saves a lot of time and effort for both you and us. If you always pay too late and do not response on our reminders you may have to start paying your orders cash before delivery.

### Interest for late payment

If you do not pay your invoice on due date we will send you an interest invoice. We charge 15% interest for late payments. Note that the payment should be on Screenbolagets bank account on the due date.

### Payment in Euro

Maxibit will send you invoices in SEK (or in Euro for a few countries). If you re-calculate the amount into a different currency before paying the invoice, please make sure that you use the correct exchange rate to avoid reminders on rest amount. We expect to receive the amount stated on the invoice to our account.
