## Network – placing text on side panels and podium

### Network 66+68+68+68+66 cm panels

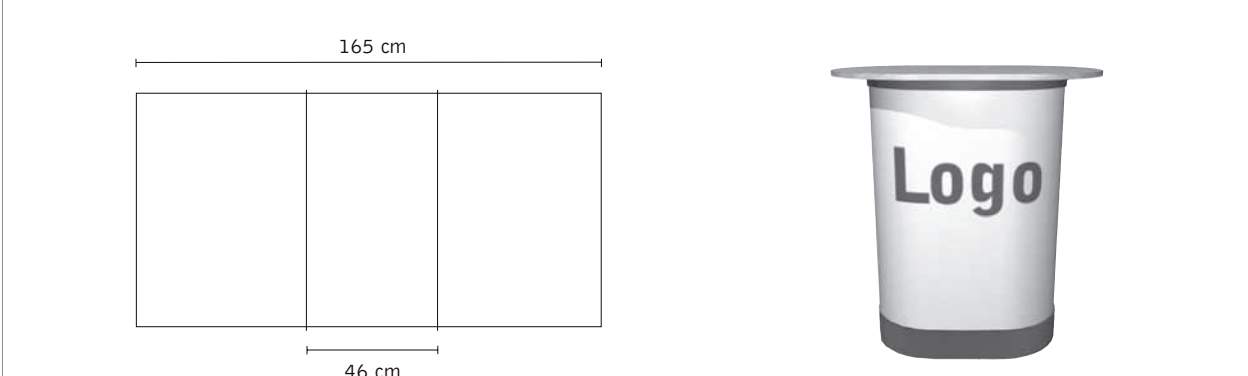

The diagram shows a layout of five panels. The two outer panels are labeled 'Side panel' and are 66 cm wide. The three inner panels are labeled 'Center panels'. The distance from the center of the side panels to the center of the center panels is 33 cm. The distance from the edge of the center panels to the edge of the side panels is 25 cm. A 3D rendering shows the side panels with text oriented vertically.

If you would like the text so it is visible from the side and partially on the front place the text in the centre.

To be able to read the full text when standing in front of the Network position it within 25 cm from the edge of the center panels.

### All-in-one podium 165x85 cm panel (new size), 163x82 cm panel (old size)

The diagram shows a rectangular panel with a total width of 165 cm. The width of the central area is 46 cm. A 3D rendering shows a podium with a logo on the front.

To be able to view the logo/image fully from the front, place it in the center of the panel at 46 cm width.
